FootActive
Australian Premium Insoles

Comfort insoles
A present for your feet!

Enjoy all-day
walking comfort!

Developed by Australian podiatrists, FootActive Catwalk insoles support the arch and metatarsal bones, thereby distributing body weight evenly over the entire foot, reducing excess forces and pressure on the forefoot.

Catwalk insoles help relieve:

- ball of foot pain (Metatarsalgia)
- tired, aching legs
- bunion pain

- made of shock-absorbing P.U. material
- cushioning, yet supportive insole
- gentle, low arch support
- built-in metatarsal raise
- super-micro fibre top cover
- adhesives to hold insole in place

Instructions: in low heels, simply place the insoles into the back of the shoe. In high heels remove the white paper circle from the underside, exposing the adhesive. Press the insole firmly into the shoe. Catwalk insoles can be washed with a warm soapy cloth. Do not soak or put the product in the washing machine or dryer!
