

COMFORT

FootActive
Australian Premium Insoles

ORTHOTIC INSOLES

For the relief of:

HEEL PAIN & SPURS
(Plantar Fasciitis)

BALL OF FOOT PAIN
(Metatarsalgia)

BACK OF HEEL PAIN
(Achilles Tendinitis)

**KNEE PAIN and
LOW BACK PAIN**

Metatarsal support

Shock-absorbing heel pad

Biomechanical arch support

**All-day walking comfort with
FootActive orthotic insoles!**

FootActive orthotics were developed by podiatrists to correct over-pronation (rolling in of the feet and arch collapse). In turn, this helps reduce strain and pressure on the feet and improve body posture. Our natural walking pattern is restored and many common aches and pains are alleviated.

FootActive supports the arches
and corrects over-pronation

Features & benefits:

- Developed by Australian podiatrists
- Effective, biomechanical arch support
- Built-in metatarsal raise
- Deep, stabilising heel cup
- Comfortable velours top cover
- Cushioning podflex heel pad
- Shock-absorbing forefoot nodules

FootActive helps relieve: - Heel pain (Plantar Fasciitis)
- Ball of foot pain - Achilles Tendinitis
- Flat feet/fallen arches - Tired aching legs
- Knee pain - Lower back pain

Fitting & Care Instructions:

Please remove any existing insoles or lining from your shoes before inserting FootActive. If required, FootActive insoles can be trimmed to size with scissors at the toe end. It may take a while to get used to the arch support. Please wear FootActive for just a few hours a day, gradually increasing the hours of wear until they feel comfortable. You may clean the insoles with a warm soapy cloth. Do not soak them or put them in the washing machine or dryer.

Suitable for all lace-up shoes as well as work boots.
